The Hong Kong University of Science and Technology (Guangzhou Campus)

Founding Faculty in the Information Hub

The Hong Kong University of Science and Technology (HKUST) invites applications for founding faculty positions in *Artificial Intelligence (AI)* for its new campus in Guangzhou (GZ). HKUST(GZ) is interested in candidates at all ranks with a demonstrated ability to pursue high-impact research in AI and its applications. We specifically look for candidates interested in applied AI research, and are able to collaborate closely with domain experts in the target application areas to develop transformative technologies using AI. The initial focus areas include, but are not limited to, AI in design, AI in finance, AI in manufacturing, AI in medicine, AI in security and privacy, and AI in smart living. We welcome senior candidates to apply, especially those who can help with the strategic development of the AI trust area for the new Guangzhou campus.

Remuneration

HKUST(GZ) offers highly competitive salary of international standard and will be commensurate with qualifications and experience. Generous research funds, ample laboratory space and excellent research equipment and support will be provided. Housing allowances will also be provided.

Application Procedure

Applications should be sent to <gzrecruitINF@ust.hk> together with (i) full CV; (ii) a statement of research, teaching, and service; (iii) up to five most representative publications in PDF formats; (iv) record of teaching performance (if any); and (v) names and contact information of three referees. Applications will be evaluated as soon as they are received, and will receive full consideration until positions are filled.

About the Information Hub

The HKUST(GZ) Information Hub focuses on addressing global challenges arising from human interactions with information and technology in an era of digital transformation. The Hub is mainly comprised of four thrust areas: Artificial Intelligence, Data Science and Analytics, Future Communication Networks, and Digital Media and Arts. We have also established an Internet of Things (IoT) division focused on technology transfer and industrial projects. In each of these areas, we are committed to providing a world-class education and conducting cutting-edge research with practical applications, with the purpose of not only advancing regional development but also making a global impact.

About HKUST Guangzhou Campus [https://gz.ust.hk/]

HKUST(GZ) offers a unique educational environment with four transdisciplinary hubs and 16 thrust areas. HKUST(GZ) offers superb research facilities, attracting top international faculty and students to conduct curiosity-driven and goal-oriented research to address the world's pressing scientific and technological challenges.

HKUST(GZ) is situated in Nansha District, Guangzhou, which is right in the center of the Greater Bay Area, one of the most vibrant and dynamic regions in the world, neighboring Shenzhen, Hong Kong, and Macao. It is about 30 minutes away from Hong Kong by high-speed train. The new campus is under construction and is planned to open in 2022. The successful candidate may start working on the Clear Water Bay campus in Hong Kong before the new campus is completed.
