AI + HADR 2020

Artificial Intelligence for Humanitarian Assistance and Disaster Response

Call for Papers

Important Dates

OC
Papers Due

OCT 30
Acceptance
Notification Deadline

DEC 1
Camera Ready
Deadline

TBD
Oral Presentation
Video Deadline

DEC 11/12
Workshop Held

WE INVITE RESEARCHERS TO SUBMIT THEIR RECENT WORK on the topic of applying Artificial Intelligence (AI) to Humanitarian Assistance and Disaster Recovery (HADR) problems to be featured at our workshop at *NeurIPS 2020*.

We welcome methods from Machine Learning, Computer Vision, Robotics, Natural Language Processing, Information Theory, Decision Theory, Game Theory, Causal Modeling, Applied Statistics, and related fields.

Further, we welcome applications to a variety of humanitarian and disaster response issues, including, but not limited to, search and rescue robotics, computer vision for damage assessment, motion planning in obstructed roads, disinformation management on social media, and much more.
